Disclaimer

This presentation includes market, industry and economic data which was obtained from various publicly available sources and other sources believed by the Company to be true. Although the Company believes it to be reliable, neither the Company nor the Underwriters have independently verified any of the data from third party sources referred to in this presentation or analyzed or verified the underlying reports relied upon or referred to by such sources, or ascertained the underlying economic and other assumptions relied upon by such sources. The Company believes that its market, industry and economic data are accurate and that its estimates and assumptions are reasonable, but there can be no assurance as to the accuracy or completeness thereof. The accuracy and completeness of the market, industry and economic data used throughout this presentation are not guaranteed and the Company and the Underwriters do not make any representation as to the accuracy or completeness of such information.

In this presentation, all amounts are in Canadian dollars, unless otherwise indicated. Unless otherwise indicated or the context otherwise requires, all references in this presentation to "EverGen", the "Company," "we," "our," "ours," "us" or similar terms refer to EverGen Infrastructure Corp., together with its wholly-owned subsidiaries. Any graphs, tables or other information in this presentation demonstrating the historical performance of EverGen or of any other entity contained in this presentation are intended only to illustrate past performance and are not necessarily indicative of future performance of EverGen or such other entities.

An investment in our common shares is subject to a number of risks that should be considered by a prospective purchaser. Prospective purchasers should carefully consider the risk factors described under "Risk Factors" in the prospectus before purchasing common shares.

Forward-Looking Information

This presentation contains "forward-looking information" within the meaning of applicable Canadian securities laws. Forward-looking information may relate to the Company's future business, financial outlook and anticipated events or results and may include information regarding the Company's financial position, business operations, business strategy, growth strategies, acquisitions pipeline, addressable markets, budgets, operations, financial results, taxes, use of proceeds, dividend policy, the reorganization of our corporate structure and our plans and objectives. Particularly, information regarding our expectations of future results, performance, achievements, prospects or opportunities or the markets in which we operate is forward-looking information. In some cases forward-looking information can be identified by words or phrases such as "may", "will", "expect", "intend", "plan", "believe", "occur", "predict", or "likely", or the negative of these terms, or other similar expressions, such as "an opportunity exists", "strategy", "pipeline", "outlook", "medium term", "here to stay" or "projection", which are intended to identify forward-looking statements.

Forward-looking information is necessarily based on a number of opinions, estimates and assumptions that the Company considered appropriate and reasonable as of the date such statements are made, and is subject to known and unknown risks, uncertainties, assumptions and other factors that may cause the actual results, level of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking information. These risks and uncertainties include, but are not limited to, those described under "Risk Factors" in the preliminary prospectus. Although the Company has attempted to identify important risk factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other risk factors not currently known to the Company or that the Company currently believes are not material that could also cause actual results or future events to differ materially from those expressed in such forward-looking information. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, prospective investors should not place undue reliance on forward-looking information. The forward-looking information contained in this presentation represents the Company's expectations as of the date of this presentation (or as the date it is otherwise stated to be made) and is subject to change after such date. However, the Company disclaims any intention or obligation or undertaking to update or revise any forward-looking information whether as a result of new information, future events or otherwise, except as required under applicable Canadian securities laws.

All of the forward-looking information contained in this presentation is expressly qualified by the foregoing cautionary statements. Prospective investors should read this entire presentation and, when available, the prospectus of EverGen and consult their own professional advisors to ascertain and assess the income tax, legal, risk factors and other aspects of an investment in our common shares.

Non-IFRS Financial Measures

This presentation makes reference to certain non-IFRS financial measures such as "working capital", "EBITDA", "Adjusted EBITDA" and "operating profit". The Company believes that these measures, together with measures determined in accordance with IFRS, provide investors with an improved ability to evaluate the underlying performance of the Company. Non-IFRS measures do not have any standardized meaning prescribed under IFRS, and therefore they may not be comparable to similar measures employed by other companies. Rather, these measures are provided as additional information to complement those IFRS measures by providing further understanding of the Company's results of operations from management's perspective. Accordingly, these measures should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS.

Certain totals, subtotals and percentages may not reconcile due to rounding.
